Pro-Shooter Series 2 Electronic Smart Target System

System Overview and Datasheet

Features

- Dry-Fire Handgun Training System (Laser)
- Wi-Fi Base Station Supports up to 15 Wireless Smart Targets
- iPhone (iOS), Android and Windows Device Applications

Applications

- Civilian Use and Training
- Handgun Clubs and Training
- Competition Training (ISSF/IPSC/USPSA)
- Government, Defence and Law Enforcement

Description

The Pro-Shooter Series 2 Electronic Smart Target system comprises of a Dry-Fire Handgun Trainer (laser based) along with Electronic Smart Targets that are wireless (Wi-Fi) and communicate with a Base Station that supports up to 15 targets. The Pro-Shooter application is available for iPhone (iOS), Android and Windows based devices.

Series 2 Electronic Handgun Trainer

Adjustable Sights, Removable Magazine, Optional Optics

Our Series 2 Electronic Dry Fire Handgun Trainer based on the Colt 1911 Handgun is the most advanced trainer on the market. It features fully adjustable front and rear sights, removable dummy magazine and realistic trigger and effective out to 25m to simulate actual range usage.

| Adjustable Sights | Adjustable Laser | Removable Mag | CR123A Battery |

Series 2 Electronic Smart Targets

Reactive Targets, Realtime Feedback/Shot Placement

The Pro-Shooter Series 2 Electronic Targets are advanced electronic targets that are Wi-Fi enabled and connect to a base station supporting up to 15 targets. The targets record and transmit the shot location/co-ordinates and relay it to your mobile devices.

| WiFi | 8 Hrs Runtime | USB Charging | Visual Indicators |

Pro-Shooter Base Station

Supports 15 Targets, User Upgradable

The Pro-Shooter Base Station provides communication between the targets and software running on your mobile devices (iPhone, Android, Windows). The system is user upgradable to facilitate new features, and any new target types that get developed.

| WiFi | 5 Hrs Runtime | USB Charging | Upgradable |

Pro-Shooter Application / Training Software

Multiple Modes, Supports Apple (iOS), Android, Windows

The Pro-Shooter Application supports all mobile and portable device types, including laptop and desktop computers. The software is continually updated with new features and shooting modes, along with support for future target types.

- Multiple Shooting / Training Modes (ISSF, Rapid Fire)
- Application Reports Target Status (WiFi Signal, Battery, Sensors)
- Application Reports Base Station Status (Battery, Connectivity)
- User Controllable Targets (RGB Light Settings, Sound Settings)
- Remote Target Diagnostics and Remote Target Shutdown

Technical Specifications

Series 2 Electronic Handgun Trainer	
Front & Rear Sight	User Adjustable
Custom Optics	Optional via Upgrade Kit
Trigger	Factory Set, Realistic Trigger Break
Magazine	Removable, Simulated Full Weight
Laser System	International Compliance (USA, AU, NZ)
Battery System	CR123A - Lithium Battery, 1yr Battery Life

Series 2 Electronic Smart Targets	
Target Type	Reactive Target, Software Controlled
Battery Type	3.7v Lithium Ion Polymer, 1100mah Capacity
Battery Life	Approx. 8 Hours Normal Usage
USB Connector	Standard USB 2.0 Micro Connector
USB Charging	Charge off USB Port, Charge via Standard Phone Charger
Communications	2.4Ghz Digital Wireless (WiFi)
Indicator Lights	Single RGB Indicator Light, Hardware and Software Controlled
Sound/Audio	Internal Speaker, Software Controlled (Enable / Disable)
Compliance	International Compliance (USA, AU, NZ)

Pro-Shooter Base Station	
Device Type	Communications Hub, Wireless Access Point
Battery Type	3.7v Lithium Ion Polymer, 1500mah Capacity
Battery Life	Approx. 5 Hours Normal Usage
USB Connector	Standard USB 2.0 Micro Connector
Communications	2.4Ghz Digital Wireless (WiFi)
USB Charging	Charge off USB Port, Charge via Standard Phone Charger
Indicator Lights	Power Indication, Battery Indicator, System Indicator
Sound/Audio	Internal Speaker, Software Controlled (Enable / Disable)
Compliance	International Compliance (USA, AU, NZ)
